General Motors

Manufacturer Safety recall issued

- NHTSA #24V418
- Transport Canada# 24967
- Recall #N242441390 SEATBELT RETRACTOR MAY LOCK
- Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this recall.

➔ Learn more about this recall

Description: General Motors has decided that a defect which relates to motor vehicle safety may exist in certain 2020 - 2025 model year Chevrolet Corvette vehicles. These vehicles may contain a driver and/or passenger seatbelt retractor that, under certain conditions, can become locked in a stowed position and unavailable as an occupant restraint.

Occupants who travel without a properly functioning seatbelt have an increased risk of injury if the vehicle is involved in a crash.

Remedy: Dealers will replace the driver and passenger seatbelt retractors.

Owner 2
Purchased: 2024

Low mileage! This owner drove less than the industry average of 15,000 miles per year.

General Motors

Manufacturer Customer Satisfaction Program issued

- Program #N242476670 SERIAL DATA GATEWAY MODULE
- Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this campaign.

➔ Learn more about this campaign

Description: Certain 2024 - 2025 Chevrolet Corvette vehicles may have a condition where the battery is at risk for a drain following an over-the-air (OTA) update.

Remedy: Dealers are to reprogram the Serial Data Gateway Module.

08/21/2025

General Motors

Manufacturer Safety recall issued

- NHTSA #25V536
- Transport Canada# 25429
- Recall #N252514930 FIRE RISK DURING FUEL FILL
- Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this recall.

➔ Learn more about this recall

Description: General Motors has decided that a defect which relates to motor vehicle safety may exist in certain 2023 - 2026 model year Chevrolet Corvette vehicles equipped with a left-side radiator/fan combination. In these vehicles, excess fuel spilled into the vehicle fuel-filler pocket during refueling may leak onto the radiator, vaporize, and migrate to the engine compartment where the vapors may be exposed to an ignition source.

If fuel vapor contacts an ignition source, there is increased risk of a fire. To reduce the risk of the condition occurring, owners should always follow the fueling instructions in their owner's manual. Always confirm that the fuel nozzle is completely inserted into the vehicle's fuel pipe before fueling. Never overfill the tank or attempt to fill after the fuel pump's automatic shut off clicks

once. Always turn off the vehicle's engine during refueling. Avoid filling at a fuel pump if the pump or pump nozzle appears to be damaged or malfunctioning. Signs that a pump may be malfunctioning include visible damage, the presence of leaked fuel, or absorbent material on the ground near the pump from prior spills. Avoid fueling the vehicle using a portable gas can. This can increase the risk of a fuel spill.

Remedy: Dealers will install a new bezel with an insert / shield to divert spilled fuel.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Service Campaign

Automobile manufacturers issue a service campaign to address product technical issues that may not be related to safety or emissions standards. These issues are typically customer satisfaction initiatives.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
